

A FRESH NEW VISION

QUALEX -
LANDMARK™

A POWERFUL LEGACY WITH FRESH PERSPECTIVE

Qualex-Landmark™, recognized as one of British Columbia's most enlightened development groups, has been building boutique residences for over 20 years. Our portfolio is defined by its quietly iconic residential communities, born out of our highly detailed approach to residential development.

The Qualex-Landmark™ team is deeply rooted in the history of its founders. In 2002, Mohammed Esfahani and Reza Navabi, both successful developers, came together to form a truly complementary partnership of respect and symmetry. Together, they built a remarkable team, a culture of collaboration and a progression of award-winning projects.

OUR VALUES AND VISION

Building future
communities

1. Creating with function and beauty

We are deeply committed to creating contemporary homes of enduring quality. Each project brings a unique perspective on functionality, comfort, craftsmanship and care with the community in mind.

2. A focus on details from start to finish

It starts with selecting the best location explicitly chosen for its merits and uniqueness in prime urban locations. Using a measured approach, we select premium finishings used in the construction of a home with the homeowner in mind.

3. An approach that ensures peace of mind

Our group ensures each homeowner is exceptionally well taken care of, every step of the way. It's a philosophy that extends beyond the homeowner to the partners and trades who make every project possible.

“

Qualex-Landmark does a really good job with their buildings-the spaces are very intelligent and well thought out and I'm really pleased with the overall experience. Now that we've moved in, we're very happy with the decision in choosing Park Point. All the promises to us were kept. ”
